● A FREE DIGITAL STARTER BUNDLE

# Make work feel a little easier.

*Start small. Make it useful.*

A practical starter ebook with productivity pages, 44 ready-to-use prompts, and simple workflow automation exercises to help you plan, create, and make repeat work easier.

## 01 PRODUCTIVITY TOOLS

Plan, reflect, and reset

## 02 44+ PROMPTS

Find a useful next thought

## 03 WORKFLOW AUTOMATION

Make repeat tasks simpler

## 04 MAKE IT YOURS

Adapt each tool to your day

# Start with what matters.

When everything feels equally urgent, a short plan can help you see the next useful step. Give this page five minutes, then get going.

**TODAY, I WANT TO MAKE PROGRESS ON**

---

1

## **MOST IMPORTANT**

The one thing that would make today feel useful.

---

2

## **ALSO MATTERS**

A second task that deserves some attention.

---

3

## **IF THERE IS TIME**

Something helpful, but not essential today.

---

**MY FIRST SMALL STEP**

---

**WHAT CAN WAIT?**

---

**Try this:** If your list still feels too big, choose the task that would make the rest easier. Start there.

# Pause. Notice. Reset.

A few honest notes can help you recognize what is working and decide what you need next. Use these prompts at the end of a workday or week.

## 01 What moved forward today?

Notice progress, even if it was small.

---

---

---

## 02 What felt harder than it needed to?

Name the friction without judging yourself.

---

---

---

## 03 What do I want to carry into tomorrow?

Choose one thought, task, or intention.

---

---

**A gentle reminder:** You do not have to fix everything today. One useful observation is enough.

# Turn an idea into a start.

A blank page can make a small task feel bigger. Use these prompts to give an idea a shape before you try to make it perfect.

1

## CAPTURE THE ROUGH IDEA

What is on your mind? Write it in one sentence.

---

2

## CHOOSE WHO IT IS FOR

Who would find this useful, interesting, or reassuring?

---

3

## FIND ONE HELPFUL POINT

What is the one thing you want them to take away?

---

4

## MAKE A FIRST VERSION

Write a few lines. You can improve them after they exist.

---

**Make it yours:** Treat this as a starting point. Your experience and judgment are what make the result useful.

# Automate the repeat. Keep the judgment.

Start with a task you repeat often. Map the steps first, then decide which parts a tool could handle and where a person should review the result.

## THE TASK I REPEAT

01

### START SIGNAL

What event or input should begin the process?

02

### REPEATABLE STEPS

What information is gathered, sorted, or prepared?

03

### TOOL ACTION

What could a digital tool do consistently?

04

### HUMAN CHECK

What needs a person to review or decide?

05

### USEFUL RESULT

Where should the finished output go?

**Keep a safe fallback:** Decide what you will do if the automation gives an incomplete or unexpected result.

# Plan and focus

Use these prompts to turn a busy list into a manageable next step.

**01** Help me choose the three most useful priorities for today from this list: [tasks].

**07** Help me estimate the effort and dependencies for these tasks: [list].

**02** Break [large task] into small steps I can complete in 30-minute blocks.

**08** Turn this vague goal into a specific action for this week: [goal].

**03** Help me define what “done” looks like for [task].

**09** Help me prepare a short agenda for [meeting or project].

**04** What is one first step I can take on [goal] in the next ten minutes?

**10** What information do I need before I can start [task]?

**05** Help me make a realistic plan for a day with [available time] and these commitments: [list].

**11** Help me create a simple weekly reset using these responsibilities: [list].

**06** Which of these tasks can wait, be simplified, or be removed? [list].

**Use it well:** Add your context, check important details, and edit the result until it sounds like you.

# Make work simpler

Use these prompts to reduce friction and make a useful routine repeatable.

01 Help me find the repeated steps in this process: [describe process].

07 What are the likely failure points in this workflow, and what fallback should I use?

02 Where might this workflow be unnecessarily complicated? [steps].

08 Help me compare doing this manually versus automating part of it: [task].

03 Turn these notes into a simple checklist: [notes].

09 Write a concise step-by-step guide for [repeat task].

04 Create a reusable template for this task: [task and context].

10 Help me identify what information should be captured each time I do [task].

05 What could I standardize in this process while keeping room for judgment? [process].

11 How can I review this routine after one week and improve it?

06 Help me write clear handoff notes for [task or project].

**Use it well:** Add your context, check important details, and edit the result until it sounds like you.

# Shape an idea

Use these prompts to get unstuck and create a first draft you can improve.

01 Give me five distinct angles on this idea: [idea].

07 What evidence or examples would make this point more convincing? [claim].

02 Who might benefit most from this idea, and what question do they have?

08 Help me make this draft clearer while keeping my meaning: [draft].

03 Help me explain [concept] in plain language for [audience].

09 What questions might a reader still have after reading this?

04 Turn these rough notes into a clear outline: [notes].

10 Give me a shorter version of this message without losing its warmth: [text].

05 What is the most useful takeaway in this idea: [idea]?

11 Help me create a first draft, then list what I should verify before sharing it: [brief].

06 Suggest three opening lines for a piece about [subject] in a [tone] voice.

**Use it well:** Add your context, check important details, and edit the result until it sounds like you.

# Reflect and grow

Use these prompts to review what happened and decide what to carry forward.

01 Help me reflect on this week: what went well, what was difficult, and why?

07 Help me turn this feedback into one practical action: [feedback].

02 What did I learn from [experience] that I can use next time?

08 What is worth celebrating about this progress: [progress]?

03 Help me separate what I can control from what I cannot in [situation].

09 Help me decide what to stop, start, and continue in [project or routine].

04 What is one small change that could make [routine] easier?

10 What would a kind but honest next step look like for me here?

05 Help me prepare for a thoughtful conversation about [topic].

11 Summarize these reflections into one intention for next week: [notes].

06 What assumptions might I be making about [challenge]?

**Use it well:** Add your context, check important details, and edit the result until it sounds like you.

# Choose one small experiment.

You do not need to use every page at once. Pick the tool that fits the friction you feel right now, then notice whether it helps.

## DAY 1

Pick one task or routine you want to make easier.

## DAY 2

Try the planner page to choose your next useful step.

## DAY 3

Use one prompt to get unstuck or clarify an idea.

## DAY 4

Write down the steps you repeat.

## DAY 5

Mark what a tool could prepare and what you should review.

## DAY 6

Try the revised process and note what changes.

## DAY 7

Keep what helped. Adjust or discard the rest.

## YOUR NEXT USEFUL STEP
